

HUNT

LIMOUSIN RANCH

OXFORD NEBRASKA

HUNT
Private Treaty
BULLS

Hunt Limousin Ranch is a family owned and operated seedstock business. Charlie and Nancy began the operation soon after marrying in 1960 with a modest herd of 350 black baldy females. Charlie began using Limousin bulls in 1978 with no intention of becoming a seedstock producer. However, as more neighbors began to notice the quality of his Limousin-sired calves, Charlie began selling bulls. The demand for HUNT genetics continued to grow and today, the Hunt program is one of the largest and most well-respected Limousin operations in the country. Among the many awards and honors the firm has accumulated over the years, one of the most humbling came in 2017 when they were awarded the Beef Improvement Federation Seedstock Producer of the Year Award.

Although the cattle have changed over the years, family, faith and honesty continue to drive every decision. The Hunt family believes in treating others the way they would like to be treated while taking care of the land for future generations and marketing a high quality product at a fair price.

For nearly 40 years, Hunt Limousin Ranch has been breeding Limousin and Lim-Flex cattle near Oxford, Nebraska. The core of the program revolves around raising sound, functional, efficient cattle that are designed to work in the commercial industry.

Charlie and Nancy still live on the ranch and play active roles in the business. They are proud to have passed the reins to their youngest son Dan, along with his wife, Melinda, and their children Jenna, Adeline and Houston.

We invite you to study the bulls available for sale this year and contact us with any questions you may have. And of course, your call or visit is always welcome.

YOUR PARTNER IN SUCCESS

Customer service is our number one priority. We want you to be successful, and will do whatever we can to insure you are satisfied. Whether it's making recommendations for your vaccination program, assisting with breeding decisions, or helping market your calf crop, we are here to help.

Calving-ease growth, and docility have been the foundations behind our breeding program for almost 40 years. Simply put, HUNT genetics will thrive in the commercial industry.

Hunt Limousin Ranch genetics are available by Private Treaty, all year long. Whether you're looking for herd bulls, replacement females, bred heifers and cows, semen or embryos you will find it here at Hunt Limousin. Your call or visit is always welcome!

CALVING-EASE - GROWTH - DOCILITY

Keeping these three fundamentals at the core of every breeding decision, along with multiple other traits, we strive to create a balanced, functional, real world beef animal. Our bulls and females flat-out work, and they have proven to work in any environment across the country. Across multiple traits, our cattle rank in the top percentiles of the Limousin breed. We are known for producing extremely docile cattle with built-in calving-ease and efficient growth which will make a positive impact on the beef industry.

Our seedstock cattle are not pampered, they must perform. We do not creep feed, this way we know which females are doing their jobs.

Being a member of the Limousin Inventory Management System (LIMS), all data is turned in, on every animal. With large contemporary groups, our truthful data is a solid measure and reflection of our herd.

COMMERCIAL COSSBRED BRED HEIFERS

Each year we keep 150-200 heifers off the top end of our calf buy back program. These heifers are developed and treated exactly like our registered females: pelvic measured, reproductive tract scored, BVD tested, synchronized and AI'd. They are AI'd to the Angus calving-ease specialist, Long Distance. Widely known as one of the best calving-ease bulls in the Angus breed, these calves weigh around 60-65 pounds at birth and have tons of newborn vigor!

These heifers are available for purchase any time. If you purchase a group before they are bred, we are willing to breed them to the bull of your choice. They will be ultrasound pregnancy checked in mid-August. Whether you need 1 or 100, we can fill the order.

REGISTERED FEMALES FOR SALE

Each year we offer our registered Limousin & Lim-Flex females for sale. They will be AI'd to leading Limousin, Lim-Flex and Angus sires to begin calving in early February. They can be purchased early in the spring before they are AI'd, or late in the fall after they are pregnancy checked. They have breed-leading EPD profiles, are extremely docile and will develop into profitable cows.

These ladies are available by Private Treaty. Come anytime, spend as much time as you need to study this great set of females.

FLUSH OPPORTUNITIES/EMBRYOS

We have sold embryos all over the world. You are welcome to pick any of our females to flush—we'd be happy to show you our cow herd! You can purchase the 'flush rights' on any female, or purchase embryos. Contact Dan for a list of potential donor cows and to discuss further details.

HOMO black and hetero polled, this is an excellent bull to use on heifers with his actual birth weight of 71 pounds. He is a son of DANH Frazier 42F, who we used on our heifers for many years. He ranks in the top 30% for 11 traits! Check out his birth to yearling spread. His calves will come easy and grow rapidly! Plus, he is smooth structured with top notch docility. HUNT 76K is a low percentage Lim-Flex that can be used on heifers. Sired by DANH Flow 80F, and out of a soggy made daughter of Bartels Asset, he has a small head, smooth shoulder and will stay moderate framed so you can use him on heifers for many years. Huge scrotal and great docility. Find his video at www.huntlimousin.com

Here is a hard to find bull, a HOMO polled, HOMO black, PUREBRED pound maker! We admire 69K for his overall substance...length, depth, width, he has it all. Throw him on a set of cows that need an extra shot of dimension and muscle and have fun watching them grow and top the sale at weaning time. Find his video at www.huntlimousin.com

HUNT 81K is HOMO black and HOMO polled! He is sired by the popular MAGS Faultless 154F and out of a young DANH Durham daughter with a great udder. It was a tad cold when he was born, but that didn't slow him down a bit. He's got a smooth shoulder and plenty of power behind it. Find his video at www.huntlimousin.com

HUNT 121K is a 50% Lim-Flex sired by the proven Angus bull SAV Thunderbird. You definitely can use 121K on your heifers...75 pound birth weight and in the top percentiles for Calving-Ease Direct and Birth Weight EPDs. His young Yankee mother is doing a good job and has a picture perfect udder. All calves will be black and polled as he is HOMO black and HOMO polled. 121K is super easy going and definitely one of the better 'heifer bulls' in the pen. Find his video at www.huntlimousin.com

HUNT 122K is really impressive. HOMO black and HOMO polled, he packs a punch in terms of base width, length and pounds. He's going to stay fairly moderate in height, but has excellent length and width which will give you a calf crop that will be sought after on sale day. AHCC Heartland and DANH Durham combined to make a really good one here. Be sure to give 122K a hard look, you'll like what you see. Find his video at www.huntlimousin.com

This 50% son of the deceased HUNT Billy Ray 80B will gain a lot of attention. He is as long, deep ribbed and powerful as any bull we raised this year. His mother produced one of our top selling bulls in our 2021 online sale, HUNT 81H, purchased by Dave and Jeremy VanBoening. HOMO polled, hetero black and with solid numbers across the board, his docility is amazing too...basically had to push him around the video pen. Congratulations to the cattleman that takes 124K home! Find his video at www.huntlimousin.com

Here's a PUREBRED bull that astute cattleman will find. He combines top-end growth with top-end carcass EPDs; give his number profile a look and you'll see what I mean. Add those great numbers to the fact that he is both HOMO black and HOMO polled and he won't last long in the Private Treaty pen. Sired by the now deceased HUNT Game 169G, who McAlpin Livestock of Australia chose to purchase semen rights. This is Game's first set of calves, and boy are we excited. Find his video at www.huntlimousin.com

HUNT 160K exhibits a ton of mass! Massive through his rib cage, a big massive square hip and a nice extended neck. Watch how easy he strides out—put him in the big pasture and be confident in his sound structure; he will cover rough ground and get the cows settled. He is a HOMO black, 70% son of our senior herd sire LFL Ellis. 160K will add pounds to your calves while keeping them attractive looking and sound. Find his video at www.huntlimousin.com

HUNT 164K is a 61% Lim-Flex, double homozygous, son of TJMR Gus 954G. Gus was our pick and top-selling bull a few years ago, raised by our good friend in Virginia, Joe Moore. The calves sired by Gus are consistently, long spined, level topped and as calm as you can make one. 164K is no different, a very nice solid bull here. Find his video at www.huntlimousin.com

Here's a rare opportunity to snag a HOMO polled PUREBRED! This March 15 born, single black, bull calf, deserves some serious attention. If you have a set of smaller framed cows and would like to stretch them out a bit and add a little frame, all while knowing the calves will be calm and correct, he is the bull for you. His dam, HUNT Yente 66Y, has been around the ranch for a long time! She's had 10 calves here, never missing. 189K would also work well if you want to keep some daughters back to develop. Congratulations to whoever takes this bull home. Find his video at www.huntlimousin.com

HUNT 227K is built a lot like 224K...red, 68%, HOMO polled Lim-Flex. This bull is as pretty fronted as any you'll find. If you're trying to produce a few show heifers or prospect steers, take a good look here. He is square in his hip, has good hair and plenty of power in his structure. Find his video at www.huntlimousin.com

HUNT GUNNER 227K

HUNT ADVANTAGES

CALF MARKETING

HUNT Limousin customers make more cash on their calves sired by HUNT bulls! When your calves are ready to be marketed we will be happy to bid either right off the farm or through the sale barn. Premiums are paid when your entire calf crop is influenced by HUNT genetics.

FREE BOARD/DELIVERY

Come to the ranch at your convenience, or study the bulls on our website. Free feed and board until April 15. Free delivery within 250 miles of Oxford, Nebraska.

GENOMICS & DNA

All bulls have Genomically-Enhanced EPDs, are parentage tested, homozygous black & polled tested, and are tested BVD negative. Udder scores and information on the dams are also available.

VOLUME PURCHASES

1% off of each bull, up to 5%.
Buy five bulls, take 5% off of your total.
